gold foil jOTBLOCK™ NOTEPAD & SUPPLY CADDY

Three by Three Seattle is reinventing their novel jOTBLOCK paper pad and supply caddy by adding a little shimmer. Gold foil both inside in the supply caddies and applied to the edges gives the **Gold jOTBLOCK** a rich reflection that makes it a shining example of Three by Three Seattle's line of tabletop stationery. The included office supplies give this groundbreaking line its unprecedented artful functionality.

When asked why gold was their next step, Mary Burnett, Vice President of Sales, said, "We recently expanded our product line to include warm metals. It was natural to combine that with our incredibly successful jOTBLOCK line. We're expecting it to be an even bigger hit."

The new **Gold jOTBLOCKs** come in three sizes:
The Classic 15 x 5 inch, comes with a pen, paper clips, and binder clips
The Wide Weekly Planner 15 x 6.5 inch, comes with a pen, paper clips, and binder clips
The Long Lined Pad 10.5 x 5 inch, comes with a pen
